## **PUBLIC HEARINGS AND INFORMATIONAL MEETINGS**

1. **INFORMATIONAL MEETING-CHANGE TO CHAPTER 7, ARTICLE 17 Development Proposal and Mitigation Requirements of the Lawrence County Subdivision Regulations**  
**Owner/Representative:** Amber Vogt/Bruce Outka  
**Action Required:** Discussion/Set Public Hearing

Vogt explained changes made to the original draft, and read the proposal. She stated changes were needed to this portion of the Subdivision Regulations to ease implementation. It now references the previously adopted Lawrence County Community Wildfire Protection Plan. Discussion also pertained to continuing maintenance and what provisions should be required in covenants. A public hearing was set for the February 5, 2009 Planning and Zoning meeting.

2. **PUBLIC HEARING- ORD 08-08 Addition of Concentrated Animal Feeding Operation (CAFO) Ordinances**  
**Owner/Representative:** Amber Vogt/Bruce Outka  
**Action Required:** Discussion/Approval/Denial  
**Purpose: To adopt a new Ordinance related to Concentrated Animal Feeding Operations (CAFO)**

The above hearing took place at the Deadwood City Hall meeting room to allow seating for all interested parties.

Vogt stated the County has been working on updates to ordinances for approximately one year. This proposal was presented to obtain public input. She acknowledged the document being heard today, needs reworked, and it is her staff recommendation to deny this document as it presently reads. Letters have been received from Ag United, Edgar and Carole Kellem, and McGuigan Inc (email). The Lawrence County Ag Committee prepared a proposal to be considered. Her recommendation is to reject ORD #08-08 as presented, and to resubmit an ordinance from a combination of the Ag Committee's proposal, the County's proposal, and other responses and suggestions.

PROPONENTS: None

OPPONENTS: Eric Jennings, Chairman of the Lawrence County Ag Committee, explained how they arrived at the document they presented. He also presented three letters of support for their draft ordinance from the Spearfish Livestock Association, South Dakota Cattlemen's Association, and the South Dakota Farm Bureau.

Vogt suggested this procedure be changed to a public meeting as apposed to continuing this hearing.

Gary Marousek stated the document being considered at this hearing is unmanageable, unworkable and intrusive. He stated the State and Feds should be the ones to handle the regulations. Tysdal responded the State requires the County to regulate, by Conditional Use Permit, a confinement of over 1000 head. Vogt corrected that statement as the State does not require such a permit, but the County requires one for over 1000 head. Diane Miller stated the State requires a State permit for over 1000 head. Vogt continued that she interpreted the regulation as if the County required a CUP, the State would require the applicant to obtain that permit before a State permit is issued. Miller stated that other CAFO or Ag operations are in existence, and the State requires all comply with Federal and State Environmental laws. Complaints can and have been filed and addressed in Lawrence County.

When asked about procedure, Vogt suggested the Board could Table the decision on the Ordinance 08-08, requiring a timely decision, or deny the ordinance, and start over. The Board continued with this Public Hearing process.

PROPOSERS: None

OPPONENTS: None

#### CLOSE PUBLIC HEARING

Moved-Seconded (Mattson-Coburn) motion to deny Ordinance 08-08. After the following discussion, the vote was taken and the Motion Carried.

Brady asked for a Red-Line version of the Ag committee's proposal. He questioned the suggestion that there be no regulation of confinement of less than 1000 head. He stated a need for not only a definition of what a CAFO is, but also what it is not. Marousek asked what the County is afraid of, leaving the regulating to the State and Feds. Brady answered from his perspective, the EPA and DENR are concerned about environmental issues, where Lawrence County is concerned those issues, it must also consider land use issues, such as roads, bridges, development, and competing uses. The County needs to protect and promote Ag use in appropriate areas, and prevent it in areas not appropriate. He stated the County's concern is what local impacts may occur. Dan Schenk discussed present wording in the Zoning Ordinance regarding A-1 and A-1 Zoning Districts. Ellen Reddick asked for clarification of parts of the Ordinance. Tysdal stated the request for input was for ideas to work on, not what was wrong with the document 08-08. Johnson stated he thinks the Board feels the same as the audience on Ord. 08-08, and the Board is trying to come up with a document that allows Ag use, but sets out protective provisions. Travis Schenk recommended the Board discard Ord 08-08 and adopt the proposal presented by the Ag Committee. Diane Miller stated that traditional cow/calf operations may not be feasible in the future for several reasons. She also has concern for development infringing on Ag operations. Jeff Sleep stated he hopes Planning & Zoning allows flexibility for future Ag uses. A group consisting of the Ag Committee and Brady, Coburn and O'Dea will work on a proposal to be brought back to the Board for consideration.

3. **PUBLIC HEARING- CUP #362-Impervious Energy Systems LLC-Wind Energy System**  
**Owner/Representative:** Charles Brown  
**Action Required:** Approval/Denial  
**Legal Description:** Lot 5, Section 1, T5N, R3E.  
**Location:** North of Deadwood  
**Purpose:** 2 -Wind Energy Systems  
**Zoning:** PF  
**Conflict of Interest:** None

Vogt presented the staff report, recommending approval, and explaining the location of the property and description of the request for two 74' towers with 50' rotor diameter, on a 43+- acre parcel adjacent to the parcel where his house is located. He presently has a CUP for one WES for his personal use. She explained the list of conditions were a product of the proposed Ordinance 08-06 Wind Energy Systems. This County Commission has since created a subcommittee to rework the proposal, including conditions required. She recommends deleting some of the original conditions and proposes a replacement with wording to include a provision that the applicant would have to meet the regulations implemented in a future Wind Energy System Ordinance. Brown stated he agreed to meeting requirements put in place by a new ordinance. Outka stated it appears Brown's proposal meets the strictest guidelines that may be imposed, and it seems unlikely that the eventual ordinance would be more strict. Brown stated he made certain changes to his original proposal to meet the strict proposed regulations. Brown explained the two towers are identical to the one next to his house, except electrically they are 3-phase where the present one is 1-phase, and the two will be 65 kw, a slight increase over the present one. Vogt stated a letter of protest was received from an adjacent property owner, Rex & Shawn Gulickson, who were unable to attend this hearing.

PROPOSERS: None

OPPOSERS: Tim Becker, representing Tom Lien, owner of property to the north, voiced objection concerning aesthetics, which is stated to be a consideration under the proposed ordinance. He stated the current WEC next to Brown's home is visible from the Lien property, and does not know if the two proposed will be visible from the cabin or property.

Brown stated proper maintenance will be performed. They will be kept in good repair.

PROPOSERS: Dan Schenk stated he heard the opposers use the visual argument and has real issues with the right of a person to use his property verses the right of another individual to look at the property. When one person owns a piece of property they own that piece of property, not the neighbor's property, but they want to control use just because they don't want to see it. He supports allowing this use.

OPPOSERS: None

CLOSE PUBLIC HEARING

Board discussion regarded definitions of Parcel and Site. Vogt suggested proposed conditions relating directly to the proposed ordinance, be struck and a condition added to read that Brown must meet whatever may be required with a new WES ordinance. Also discussed were wind channels and logging, and the definitions and future control intention of both small and large

wind energy systems. Brown requested Brady recuse himself from the vote because of his relationship with Mr. Gulickson. Outka stated he does not see where there is a technical conflict and Brady refused the request.

Moved-Seconded (O'Dea-Coburn) motion to recommend approval of CUP #362 with the staff recommendation and conditions as presented. Aye: 6, Nay: Brady. Motion Carried.

4. **PUBLIC HEARING- CUP #361-Timothy Hauck-2-Wind Energy Conversion Systems—  
TABLED AT August 14, 2008 Meeting**  
**Owner/Representative:** Timothy Hauck  
**Action Required:** Approval/Denial  
**Legal Description:** 74.8 acres in Section 10, T7N, R2E.(legal shortened)  
**Location:** North of Spearfish  
**Purpose:** 2- Wind Energy Systems  
**Zoning:** A-1  
**Conflict of Interest:** None

Moved-Seconded (Mickelson-O'Dea) motion to take from the table, CUP #361. Motion Carried.

Vogt reviewed background of this request for one tower providing power for his home and recommends approval with conditions. His original application included a 15 foot tower, however it is used only to provide power for a water pump and Christmas lights, and should be considered ornamental.

Moved-Seconded (Mickelson-Mattson) motion to recommend approval of CUP #361. Motion Carried.

5. **RECOMMENDATION MEETING-VAR #122- Loup Land Company**  
**Owner/Representative:** Daphne Loup/NJS Engineering  
**Action Required:** Recommendation to County Commissioners  
**Legal Description:** NW1/4NW1/4, Section 35, T7N, R2E, NE1/4NE1/4, Section 34, T7N, R2E, SE1/4NE1/4, Section 34, T7N, R2E. (112+ acres)  
**Location:** Loup Subdivision North of Spearfish, on Kerwin Lane  
**Purpose:** 10' variance to 35' height restriction for a Water Storage Tank.  
**Zoning:** RR  
**Conflict of Interest:** Brady

Brady abstained from discussion and vote.

Vogt explained the City of Spearfish contacted the office regarding a water tower built without a building permit. The property is in the Spearfish building permit jurisdiction, but must meet

County requirements. She was told the structure is taller than the 35 foot height limit. Allen Drewes, representing NJS Engineering, explained the tower is 40 feet tall to enable flow needed without a booster pump. An attached ladder adds an additional 5 feet to the height, totaling the 10 foot variance request.

Moved-Seconded (Mickelson-O'Dea) motion to recommend approval of VAR #122. O'Dea stated typically a height restriction keeps buildings from being taller than a fire department can handle. This being a water tower, there is nothing to catch on fire, and this does not cause a safety issue. Motion Carried.

**6. RECOMMENDATION MEETING-VAR #123- Dan Engebretson**

**Owner/Representative:** Dan Engebretson

**Action Required:** Recommendation to County Commissioners

**Legal Description:** Lot 15 of Engelwood Acres, Section 16, T4N, R3E.

**Location:** Engelwood

**Purpose:** 15' variance to 25' setback for a shed

**Zoning:** PF

**Conflict of Interest:** None

Vogt provided pictures of the property and stated a neighbor expressed concern for this shed being placed in the setback. She presented the staff report recommending approval because of topography. She stated Engebretson also considered the placement of the shed to protect the well head from the weather.

Moved-Seconded (Brady-Mickelson) Due to the existing encroachment that would be Grandfathered, and the insignificant aspects of this structure and the practicality of what it is, motion to recommend approval of VAR #123. Aye: 6, Nay: O'Dea. Motion Carried.

Motion to adjourn (Brady) at 4:35pm. Motion Carried.

Moved-Seconded (Coburn-Mickelson) motion to approve the agenda with the addition of discussion of platting remainders during consideration of #3: Layout Plan for Owner, Douglas Miller, for land described as: Lot D of H.E.S. 537, in Section 35, T4N, R4E, and Section 2, T3N, R4E. Aye: 5, Absent: Brady and Mattson. Motion Carried.

**Declaration of Conflicts of Interest:** None

**PLATS**

**1. LAYOUT PLAT**

**Owner/Representative:** Mattson Inc, Jon & Barbara Mattson/Arleth & Associates

**Action Required:** Discussion

**Legal Description:** Layout Plat of Proposed Lots 1 thru 9 of Brighter Day Subdivision # 2 a Sub of Tract B in Secs 25&36, T5N, R3E, and Sec 30, T5N, R4E (legal shortened)

**Location:** Boulder Canyon

**Purpose:** New Subdivision

**Zoning:** PF

**Conflicts of Interest:** None

Vogt explained this property had originally been platted into Tracts A and B. Tract A became Brighter Day Subdivision with approximately 13 lots. Tract B is proposed to have an additional 9 lots, with the upper portion remaining undeveloped. She is concerned with access to that upper portion of Tract B. Mattson explained at this time the transfer of property he plans for the road to be on, has not been completed. He stated he foresees an additional 6 lots, but until finalization of the property transfer, development of the upper portion is not feasible, as the best place for a large portion of the access is on that property. Vogt asked and Mattson agreed to provide an overall plan to include the entire development.

**2. PRELIMINARY AND FINAL PLAT**

**Owner/Representative:** Salmon Inc, Richard Oppedahl/Arleth & Associates

**Action Required:** Approval/Denial

**Legal Description:** Plat of Tracts 1 and 2 Sub of Lot A, and Remaining Portion of HES 68, in Sections 7,17,18, T3N, R4E (legal shortened)

Vogt explained this plat is to enable a lot line move, and the lots now comply with setback regulations. This plat meets exemption requirements under Article 4 of the Subdivision Ordinance.

Moved-Seconded (O’Dea-Mickelson) motion to approve Preliminary Plat. Aye: 5, Absent: Brady and Mattson. Motion Carried.

Moved-Seconded (Mickelson-Coburn) motion to approve Final Plat. Aye: 5, Absent: Brady and Mattson. Motion Carried.

**3. LAYOUT PLAN**

**Owner/Representative:** Douglas Miller / Amber Vogt

**Action Required:** Discussion

**Legal Description:** Lot D of H.E.S. 537, in Section 35, T4N, R4E and Section 2, T3N, R4E.

**Location:** Nemo Road

**Purpose:** Layout plan

**Zoning:** PF

**Conflicts of Interest:** None

Vogt explained the request by Doug Miller to plat a +- 5 acre lot, with a remainder of less than 40 acres, out of one parcel presently described as Lot D of H.E.S. 537 (legal shortened). Miller made this request to enable him to get more favorable refinance rates. He wishes to plat only the smaller lot, leaving a remainder, a practice the Board has denied in the past. Discussion pertained to platting Mineral Surveys, and previously platted lots. Coburn and Johnson stated Board decisions need to be consistent. The Board agreed that the “Remainder” should be platted.

**PUBLIC HEARINGS AND INFORMATIONAL**

**1. PUBLIC HEARING-- ORD #09-01 - CHANGE TO CHAPTER 7, ARTICLE 17  
Development Proposal and Mitigation Requirements of the Lawrence County Subdivision  
Regulations**

**Owner/Representative:** Amber Vogt/Bruce Outka

**Action Required:** Approval/Denial

**Conflict of Interest:** None

Vogt explained the proposed changes make for easier compliance. Some wording has been moved and included under Mitigation Requirements, and other wording deleted as it is addressed in the previously approved Lawrence County Community Wildfire Protection Plan, referred to in the proposal. Mitigation Requirements include emergency ingress and egress, water sources, supplies and distribution, Weed Plan and Fire Plan. The original Article 17 was deleted and requirements added to Preliminary and Final Plat requirements. She also explained a section pertaining to preparation of plats include wording suggested by the SD Dept of Labor referring to SDCL 36-18A. Also added for consideration was wording to Section 1.6 Supplemental Requirements, pertaining to maintenance agreements, covenants and/or deed restrictions.

PROPOSERS: None

OPPOSERS: None

PROPOSERS: None

OPPOSERS: None

CLOSED PUBLIC HEARING.

Vogt asked for the Board's assistance in preparing a generic set of covenants, to be used as an example, which would include all requirements called out in the ordinance. She explained the example used in the past, does not address some of the new regulations. Also discussed was compliance and completion of recommendations outlined in Chapter 6 Article 2, Section 1.6 a-d.

Moved-Seconded (Coburn-Mickelson) motion to recommend approval of Ordinance Amendment #09-01. Aye: 5, Absent: Brady and Mattson. Motion Carried.

**2. Informational – Planned Unit Development Districts**

**Owner/Representative:** Amber Vogt/Bruce Outka

**Action Required:** Discussion/Set Public Hearing

**Purpose:** Change to our current process of a PUD, to be a PUD Zoning District in itself. This would allow someone to apply for a zoning change to Planned Development Zoning and require them to plan the entire development up front with all of the different zoning aspects at once instead of doing both a PUD, a COZ and a plat.

Vogt explained the present procedure to apply for a Planned Unit Development, which usually involves Changes of Zoning requests, including fees, and hearings for both, historically held simultaneously. The process is confusing for all involved, especially the public. She has found this is an archaic format and suggests the possibility of developing a PUD Zoning District. She explained this procedure would ultimately streamline the process, and provide an overall development plan from the beginning. She asked the Board for their thoughts on adding this Zoning District. The Board agreed this concept was worth pursuing and asked Vogt to draft a proposed ordinance for consideration.

**3. DISCUSSION ITEMS:**

**1. Hwy 85 Corridor**

Vogt gave an update on the multi-use area study along Highway 85 north of Spearfish. She explained the City of Spearfish requested the study extend the area to the Red Water River, instead of ending at Kellem Lane. The committee then divided that area into two general planning guidelines. She described the goals and principles of the study. She reiterated this document is a guideline to use as a tool to aid in future planning, not an Ordinance.

Moved-Seconded (Mickelson-Coburn) motion to recommend adoption and allow the use of the Highway 85 Land Use Study guidelines. Aye: 5, Absent: Brady and Mattson. Motion Carried.

**2. Old Belle Road Corridor**

Vogt stated the same process is being used to study the Old Belle Road Corridor land use as the Hwy 85 Corridor study. This study has just begun, with an onsite visit and initial discussion. No written suggestion of guidelines has been prepared.

**3. Smokey Mountain Ranch Road Issue**

Vogt reminded the Board that at a previous meeting, final plat for a lot in Smokey Mountain Ranch had been presented. At that time the question of the road surface width in the Subdivision had come up. She had Dick Birk, Hwy Superintendent, measure the driving surface of the road, as Ordinance requires a 24 foot driving surface. Birk's measurements showed an average of 19 feet wide. She explained the original gravel surface was 24 feet, but after the developer surfaced it with an asphalt mat, the graveled edge fell away, leaving a 19 foot driving surface. The developer, Roger Riley, understands that no new plats or building permits will be approved until this matter is resolved. He asked if the road could be changed to a one-way road, and not require the driving surface to be widened. Vogt stated the Ordinance does not allow for a narrower driving surface. Riley wanted the Board to know that he was aware of the situation and asked them to consider a provision to allow a narrower one-way road.

Motion to adjourn (O'Dea) at 3:15 p.m.

**PUBLIC HEARING AND INFORMATIONAL**

**1. INFORMATIONAL MEETING-ORD 09-02 Planned Development Zoning District**

**Owner/Representative:** Amber Vogt

**Action Required:** Discussion/Set Hearing

**Purpose:** Zoning Ordinance Amendment adding a new Zoning District

Vogt stated she does not have a completed document for the Boards consideration, but distributed examples of documents adopted by other entities. She explained the concept of this Zoning district allows a change to Planned Development Zoning with several requirements including a development proposal for the entire project. Vogt explained the present procedure to apply for a Planned Unit Development, usually involves Changes of Zoning requests, including fees, and hearings for both, historically held simultaneously. The process is confusing for all involved, especially the public. She stated several area entities have made changes to include this zoning district. Brady suggested looking at documents from local entities to coordinate or assimilate our document to take into consideration future annexation or jurisdictional issues.

**2. INFORMATIONAL MEETING-CUP # 373 Gravel Pit– Johner & Sons Earthmoving**

**Owner/Representative:** Don Hurm, Property owner/Kent Johner, Applicant

**Action Required:** Discussion/set on-site

Vogt gave background and location information on this property. CUP #260 was issued in 2000, to Weatherton Contracting for a gravel pit on the same property. It was cancelled after non use for 12 months. Kent Johner explained the State permit is still active, with the pit being operational off and on since the early 1960's. State permit procedures include approval from the County, requiring a CUP, prior to reactivating the mining permit. The State told Johner that his company would be responsible for reclamation regulations now in place. A Public Hearing will be held at the Planning & Zoning Meeting April 2, 2009.

3. **INFORMATIONAL MEETING- Zoning Ord Amendment 09-03 – Virginia Corcoran**  
**Owner/Representative:** Virginia Corcoran

**Location:** Spearfish Valley off Evans Lane  
**Purpose:** Commercial Greenhouse  
**Zoning:** SRD  
**Conflicts of Interest:** None

**ITEMS 3 and 4 were discussed simultaneously.**

Vogt explained Virginia Corcoran is appealing an administrative decision Vogt made regarding the loss of Grandfather status of Spearfish Greenhouse. If Corcoran is successful with the appeal to the County Commission, the Ordinance Amendment and Conditional Use Permit procedures will not be needed. It was decided that to save time in the event the appeal decision is not in Corcoran's favor, this CUP and the Ordinance Amendment would proceed. Currently a Commercial Greenhouse is not an allowed or conditional use in Suburban Residential Zoning District, hence the need to for the Ordinance Amendment.

Corcoran explained her plans to continue the business her parents started on this property, and voiced concern with the other greenhouse businesses in the area. It was explained the others were approved under previous rules and procedures, one with a CUP and one by a Joint Jurisdiction board by a Variance procedure, no longer used. A Public Hearing was set for both the Ordinance Amendment 09-03, and CUP #374 for the Planning & Zoning meeting April 2, 2009.

5. **INFORMATIONAL MEETING- CUP #375 Small Wind Energy System– Robert Mattox**  
**Owner/Representative:** Robert Mattox

**Location:** East of HWY 385 off Elk Creek Road

**Zoning:** PF

**Conflicts of Interest:** None

Vogt explained this application does not meet the regulations in the proposed SWES Ordinance which has been approved but has not taken effect. Mattox is applying for a 90 foot, guyed tower under the present regulations on a 3.6 acre parcel. An onsite inspection will be held March 25, 2009 at 3:00 pm. **Zoning:** A-1 to RR

**Conflicts of Interest:** None

Vogt explained the City of Spearfish has annexed the property on three sides of this acreage. This request is to allow the division and building density for three brothers who own the property. A Public Hearing will be held at the Planning & Zoning meeting April 2, 2009.

**7. DISCUSSION: Lance Hubbard Building Right attached to an A-1 zoning**

**Representative:** Amber Vogt

**Action Required:** Discussion

**Description:** (May or May Not Be Legal Description) All that part of the NE ¼ of Section 17, T6N, R4E, being and lying northeasterly of the State Highway #34 transversing said quarter, consisting 13 acres, more or less.

**Location:** North of Whitewood on Hwy 34

**Purpose:** Question building right on A-1 parcel with present dwelling on rest of 40 acre tract.

**Zoning:** A-1

**Conflicts of Interest:** O’Dea

Vogt explained this A-1 zoned parcel is divided by Highway 34. The portion North of the highway is approximately 13 acres, and Hubbard is requesting assurance that this parcel would have a building right. She stated there is a residence on the remaining portion of the parcel, and Ordinance prohibits more than one residence per 40 acre parcel in A-1 Zoning District. Hubbard explained this property was deeded to him by his parents in 1974, and has had a residence on it in the past, and presently has a barn and calving sheds. He wishes to sell the property as it is not useful to the operation being cut off by the highway. Vogt noted in order for property to be considered a “lot of record” she has always used the recording date of June 1974 when the First Zoning ordinance was adopted. Hubbard’s deed was recorded in August 1974. As she wants to stay consistent with information given by her office, she brought this situation to the Board for a decision. After discussion regarding the old abandon road and Railroad right-of-way, the Board suggested Hubbard apply for a Change of Zoning for the entire 40+- acres to A-2, allowing the subdivision

**8. DISCUSSION: Signage Clarification of City of Lead**

Vogt read the zoning ordinance amendment 3.3.2 adding to Park Forest Zoning District, “Signs of a noncommercial nature and in the public interest, erected and maintained by a municipality or township in compliance with all other state and local laws.”

She reminded the Board the reason for this addition was to allow the City of Lead to erect a sign on property owned by, but not in the city limits of Lead. She had been contacted by Wayne Paananen about erecting several signs. Mr. Paananen explained he represented a group who wishes to erect signs promoting Lead in various places in the County. Vogt explained the ordinance amendment was specific in what the intended use was and the County has also adopted a Sign Ordinance which would not allow Paananen’s request unless treated as off premise signage, which would then need HSC-Highway Service Commercial property. The City of Lead may apply for the public interest sign, but a private individual or group can not.

**9. UPDATE: New Maps for FEMA Floodplain**

Vogt explained the process for updating the FEMA maps. She announced a representative would meet with the County Commission on May 24<sup>th</sup> to explain the update requirements.

**10. Items from Planning & Zoning Board Members**

Discussion but no decisions were made on topics including Windmills, the Sign Ordinance, Sewage Disposal Systems designs, Ag committee discussion regarding feedlots, and the Zoning Ordinance format.

Motion to adjourn (Coburn) at 4:55 p.m.

Moved-Seconded (Mattson-Johnson) motion to recommend approval of Ordinance Amendment 09-03 to add Commercial Greenhouse as an allowed use in the Suburban Residential Zoning District. Aye: 5, Absent 2. Motion Carried.

**3. PUBLIC HEARING- CUP #374 – Virginia Corcoran/Spearfish Greenhouse**

**Owner/Representative:** Virginia Corcoran

**Action Required:** Approval/Denial

**Legal Description:** Lots 1&2 N1/2 SW1/4NW1/4, and E1/2 of Lot D of Lot 3A-2 of Lot 3 in NW1/4, Section 3, T6N, R2E.

**Location:** Spearfish Valley off Evans Lane

**Purpose:** Commercial Greenhouse

**Zoning:** SRD

**Conflicts of Interest:** None

Vogt presented the staff report recommending approval, and explained the circumstances of this request. She stated there presently is a greenhouse on Lot 2. A modular home is on lot 1, and Corcoran requests a new greenhouse between the modular and existing greenhouse. Also a third lot is requested to be included in this CUP across from these lots on Dubois Lane. Vogt presented two letters, one in support and one requesting denial, and she stated the City of Spearfish has building permit jurisdiction.

Virginia Corcoran presented a sketch of the placement of the new greenhouse, and the proposed parking plan.

**PROPOSERS:** Eric Hunt stated he has no problem with the request. He has noted the property is being cleaned up, and stated this is a perfect place as there is already one greenhouse on the property.

**OPPOSERS:** Cindy Hermann stated she is against issuing the permit until Corcoran finishes cleaning up the property. She has not seen much progress in the last 27 years. She asked about the process if the permit is issued and in a few years the weeds are up and the junk is back. She also asked if one of the conditions concerned weeds.

Randy Johnson voiced concern about using Dubois Lane to get to the parking area.

**APPLICANTS:** Corcoran discussed the parking plan prepared which includes a Handicapped spot. Vogt explained this CUP is allowing her to run the business. The parking plan and other requirements will have to be approved by the City of Spearfish before a building permit will be issued.

**PROPOSERS:** None

**OPPOSERS:** None

**CLOSED PUBLIC HEARING.**

Daryl Johnson asked if the development plan should have been presented during consideration of this permit. Vogt stated she did not require it for the CUP hearing and parking will not be allowed in any road right-of-way. Johnson also questioned condition #3 giving Corcoran one year to clean up the property. He asked Corcoran why she hasn't finished the clean up.

Corcoran explained that when her mother was in charge, things were done her way. Now, Virginia is responsible. Her son has equipment and can help her. Johnson asked her if she understands that if she doesn't follow the conditions, the Permit can be pulled. Vogt stated it is her understanding that some of the materials and items on the property will be used in the new greenhouse, and will be inside it as soon as it can be built.

Moved-Seconded (Johnson-Coburn) motion to recommend approval of CUP #374 with conditions as written, changing Condition #3 to state:

“The applicant has Six (6) months from the date of approval of this CUP to fulfill all requirements of the Development Plan and the clean up of the property, which is specified in the development plan. If at such time all requirements have not been met, the CUP will automatically be revoked.”

**5. PUBLIC HEARING- COZ #285 from A-1 to RR – William Swenson**

**Owner/Representative:** William Swenson

**Action Required:** Approval/Denial

**Legal Description:** Tract “A” of the W1/2 SW1/4SW1/4 Section 8, T6N, R3E. (20 +/- acres)

**Location:** East of Spearfish Airport, on Airport Road

**Purpose:** Change Zoning

**Zoning:** A-1 to RR

**Conflicts of Interest:** None

Vogt presented the staff report explaining the proposal of the jointly owned 20 acre parcel being re-zoned and platted to allow separate ownership of three parcels each 6.6 +/- acres. Staff gives no recommendation with the following concerns listed:

1. The proposed Change of Zoning is located in A-1 General Agriculture District, but is surrounded by the City limits of Spearfish on three sides. This situation has historically allowed a Change of Zoning to a higher density when it is adjacent to the City Limits, but if we take into the consideration of the City Zoning, which is still Ag, it does not make sense from a planning standpoint to increase density, until the next adjacent property has a higher density.

An example of this precedent would be the Loup Subdivision off of Kellem Lane, the property and most of the surrounding area was zoned Agriculture, but the City Limits were adjacent to this

parcel, therefore the Change of Zoning was allowed, the platting had to go through the City of Spearfish and since this has started there has been much concern with the septic tanks and other planning issues in this area, by the City of Spearfish.

One thing I would like the Board to remember is just because we have done it in the past does not mean we have to continue making decisions because of a precedent.

2. The closest property with a higher density is about ¼ mile away, so there is no directly adjacent property with a higher density.
3. The Comprehensive Plan states we should establish intergovernmental agreements and pursue coordinated planning and community development efforts with Spearfish, which is done on a regular basis with areas that are of concern for the City of Spearfish. This fact is why the comments made by the City of Spearfish listed above are a great concern, specifically their concern with higher density on parcels that do not have city water and sewer services available at this time.

Keith Swenson represented his brothers and explained each wishes to own a parcel with a building rite.

PROPOSERS: None

OPPOSERS: None

APPLICANT: Swenson asked about easements and access documents, and was told that is the landowner's responsibility.

PROPOSERS: None

OPPOSERS: None

CLOSED PUBLIC HEARING.

Vogt explained the property has extensive floodplain area, and the way the division is proposed, is the only way each parcel would have a reasonable building site. Annexation was discussed as a more logical consideration, as the property is bordered on three sides by Spearfish city limits. Vogt stated the City does not wish to annex, and Swenson stated they don't either. Johnson questioned if there will be problems created with the property close to the Airport. Vogt stated the City of Spearfish had Platting and Building permit jurisdiction of this property.

Moved by Coburn to recommend approval of COZ #285. The motion died for lack of a second.

Moved by O'Dea to recommend denial because this property should be annexed. The motion died for lack of a second.

Moved-Seconded (Coburn-Mattson) motion to recommend approval of COZ #285. Aye: Coburn, Mattson. Nay: Johnson, O'Dea, Tysdal. Absent: Brady, Mickelson. Motion Failed.

Vogt advised Swenson he has the option to continue his request to County Commission. Swenson will discuss it with his family and let her know.

No on-site was scheduled and a public hearing is set for the Planning & Zoning meeting on May 7<sup>th</sup> at 1:30 p.m.

9. **INFORMATIONAL MEETING- CUP #377- Commercial Outdoor/Indoor Arena, Boarding and Lessons-Sarina Jensen/Steinmeyer Farms Inc**  
**Owner/Representative:** Sarina Jensen  
**Action Required:** Discussion/Set Public Hearing/Set Onsite

She stated they will be updating the present buildings for the business. An on-site was scheduled for May 4 at 2:00 p.m. with a public hearing on May 7<sup>th</sup> at 1:30 p.m.

- 10. DEVELOPMENT PLAN for HSC Property-Roger Riley**  
**Owner/Representative:** Roger Riley  
**Action Required:** Discussion/Set Public Hearing/Set Onsite  
**Legal Description:** Lot 2-A of Tract A, and 3-A-1 sub of Lot 3A of Tract A, Both in Section 14, T6N, R2E.  
**Location:** Spearfish Canyon, next to the Chophouse.  
**Purpose:** Plan for Existing Commercial Property  
**Zoning:** HSC  
**Conflicts of Interest:** None

Vogt described the location of the property, zoned HSC, and Riley’s plan to start a small restaurant in the present structure. She explained the development plan did not provide adequate parking, so Riley included the Canyon Gateway Motel to the plan, with a shared parking agreement. There are some issues with the septic system, which are being addressed, and the City of Spearfish will issue any building permits, and must approve all parking plans. The Board agreed they approve of this plan and a County Commission public hearing will be held April 28<sup>th</sup> at 9:30 a.m.

- 11. DISCUSSION ITEM:**  
**City of Lead Sign Permit at Cutting Mine Road**

Dennis Schumacher, representing the City of Lead, was present to discuss the sign the City proposed to be erected along Hwy 14. His concern was with possible confusion when Wayne Paananen met with the Board regarding signs for Lead. He asked for confirmation that an informational sign for the City of Lead was still available. Vogt explained regulations in the sign ordinance, and the requirements for this sign. It is her opinion that when the City applies for the sign, and all the regulations are met, the permit should be issued. The Board agreed.

- 12. DISCUSSION ITEM:**  
**Sorensen Family Plan**

Vogt explained this property was platted in 1971, and two dwellings were built shortly after, all done before zoning regulations. The request is to divide the lot after acquiring a small portion from the neighbor, making it four acres, and when divided, each lot shall have two acres. This division does not comply with the present ordinance, but it will allow each home to be on its own lot. Platting will be required, to include this property and the neighbor's additional acreage. Vogt stated she believes this is an “exempt” plat, not requiring covenants and fire mitigation plans. The Board agreed to allow this procedure.

- 10. Items from Planning & Zoning Board Members**

Discussion but no decisions were made on topics including DENR requirements for water and soil quality, current feedlot requirements, definition of a Feedlot and other terms and words needing defined in Ordinances, and building permit requirements.

**Declaration of Conflicts of Interest:** None

1. **WORK SESSION -Animal Feeding Operation Ordinance**  
**Owner/Representative:** Amber Vogt/Planning and Zoning Board  
**Action Required:** Discussion/Edits/Writing of the Ordinance/Set Informational Meeting  
**Purpose:** Addition of Animal Feeding Operation Ordinance

Items for Review:

- a. Draft Ordinance-Lawrence County Ag Committee
- b. DENIED-Ordinance 08-08
- c. Lincoln County Ordinance
- d. Yankton County Ordinance

The Board discussed the above ordinances and made the decision to work on the original ORD 08-08 presented last year, this original document was denied by Planning and Zoning and County Commission. While reviewing this document they also took the others listed above into consideration.

Tom Brady discussed the task force that was set up by the Commission last year and why things did not go as planned, due to time constraints of his regular job. He felt that there was a lack of trust and clarity in the definitions. Some of the questions that were addressed in these task force meetings included: How to identify existing operations? Whether or not these existing operations would be considered legal or grandfathered into the new ordinance? He also felt that at the time the Comprehensive Plan was created, the term commercial feedlot was meant to be used much like the Concentrated Animal Feeding Operation term today. There does need to be some continuity between the current definition in our Comprehensive Plan and the County Ordinances and the State Laws.

The Board discussed the focus of the County and the State being different. The state is concerned strictly with environmental issues and the county looks at such things on a land use

and planning basis. There was a lengthy discussion regarding the map created showing the 3 mile, the 1 mile and the ½ mile boundaries around the City of Spearfish. This idea was also discussed that if you did this for Spearfish you would also have to create this same procedure for St. Onge, Whitewood, Lead and Deadwood. In the end the Board determined a map such as this was not needed as similar boundaries are set up within the setback requirements. They also discussed the possibility of creating a Special Use Permit for a Small CAFO if it can meet all of the setback requirements of a large CAFO. This would be done through a site plan review and a setback review, then if it was able to meet the requirements the Planning and Zoning office would issue a Special Use Permit/Building Permit, without having to go through the Conditional Use Permit Application process. If you could not meet those underlying requirements set out in the tables, you would then need a CUP no matter if it was a Small, Medium or Large CAFO. It was asked if we have the capability in the office to look at maps from the USGS related to the different types of water. Vogt stated we do. Further discussion regarded the setback requirements for waste disposal and actual location of the CAFO. The Board went on to discuss the definitions within the Ordinance, specifically adding a definition of agriculture and the definition of a CAFO.

Diane Miller was present and toward the end of the meeting asked if she could ask some questions and give some suggestions. These included concerns with the setbacks issues and definitional issues that the Board had been discussing. She also felt that a number of current operations in the County would not be able to meet the setback requirements. She also stated that there was a large number of the Ag people in the County which have a very strong distrust for the County at this time. The Planning and Zoning Board asked Diane if she would be willing to set up a few people through out the community that are currently running operations and who could not meet these regulations for the Board to do an on-site on to actually see how these operations are run. They would like to see what exactly is going on out there to make the regulations fair for all. Diane offered her operation as a possibility, but said she did not know about others because of the distrust and the scrutiny it might bring from the public.

Vogt stated she would have the revisions made to the existing document by Friday and would them email it to Eric Jennings with the Lawrence County Ag Committee for their review. She asked that the Ag Committees response be received no later than Monday, June 1, 2009. Another Special Meeting was set for another work session on June 2, 2009 at 1:00 p.m. the Board will review the Ag Committees response at that time.

### **Items from Planning & Zoning Board Members**

Discussion regarded existing Ag operations and the fact that in the Board's eyes, most of the operations discussed today would fall under the normal Ag operation, not a CAFO.

Moved-Seconded (Mickelson-Mattson) motion to adjourn at 5:30 p.m..

# LAWRENCE COUNTY PLANNING & ZONING COMMISSION

MINUTES OF June 2, 2009

SPECIAL MEETING

Chairman Rick Tysdal called the special meeting of the Lawrence County Planning & Zoning Commission to order on Thursday, June 2, 2009 at 1:00 p.m. in the County Commissioners Room, 90 Sherman St., Deadwood, SD, Lawrence County.

**PRESENT:** Rick Tysdal, Daryl Johnson, Barb Mattson arrived at 1:36, Tom Brady arrived at 2:00

**ABSENT:** Bill Coburn, Craig Mickelson, Marty O'Dea,

All motions passed by unanimous vote by all members present unless otherwise noted.

Moved-Seconded (Johnson-Brady) motion to appoint Barb Mattson Acting Secretary. Motion Carried.

Moved-Seconded (Mattson-Brady) motion to approve minutes of May 18, 2009. Motion Carried.

Moved-Seconded (Brady-Mattson) motion to approve the agenda with the following change: Move "Items from Planning and Zoning Board Members" to the end of the meeting. Motion Carried.

**Declaration of Conflicts of Interest:** None

- 1. WORK SESSION -Animal Feeding Operation Ordinance**  
**Owner/Representative:** Amber Vogt/Planning and Zoning Board  
**Action Required:** Discussion/Edits/Writing of the Ordinance/Set Informational Meeting  
**Purpose:** Addition of Animal Feeding Operation Ordinance

Discussion began with only Tysdal and Johnson present, they were able to call the meeting to order, but understood that no decisions could be made without a quorum present, a quorum being 4 members. Members of the audience included Leo Orme, Tommy Thompson, Jim Eddy, and Eric Jennings. Tysdal explained he had discussed the changes made at the previous special meeting with Eric Jennings, chairman of the Ag Committee, and the Ag Committee decided that the proposed ordinance did not coincide with the thoughts of the ag committee, therefore they decided not to respond.

Diane Miller sent a copy of an ordinance from Bowman County, ND, for the Board to consider some of the definitions. These definitions and the rest of this document were discussed at length. Vogt explained the references incorporated into present A-1, A-2 and Park Forest Zoning Districts, to include Concentrated Animal Feeding Operation (CAFO) and other Agricultural uses. The proposal lists Allowed Uses and Conditional Uses, and adds Allowed Special Uses. She proposes that Small CAFOs be allowed to apply for an Allowed Special Use permit, instead of a Conditional Use Permit, if it can meet all requirements of a Large CAFO. The Board agreed that the Allowed Special Use shall also include Medium CAFO's. Definitions were considered for various terms, including, but not limited to winter feeding operation, concentrated animal feeding operation, dry lot, agriculture and wetlands. The 3 tables included in this Ordinance were discussed at length. These tables included numbers and types of animals, setbacks for waste disposal and setbacks for the actual operation. The question arose about possible variances to the setback requirements set out in the ordinance, it was determined that the current variance

procedure can only be used for hardship on the property due to a physical barrier. Then an idea of setting out an exemption to the setbacks arose. This exemption would allow property owners to receive an exemption from their neighbors to be closer to the property lines. Concern was voiced regarding regulating small numbers of animals, such as 4-H projects or herd containment during certain times such as calving or winter feeding.

All of the following items were discussed: The State Right to Farm Statute, the previous and existing Comprehensive Plans, the previous and existing Lawrence County Zoning Ordinances, the interpretations of these documents, “what if” situations, current operations, and possible resolutions.

The Board asked Amber Vogt and Bruce Outka to work on some wording regarding the nonconforming uses and the existing operations. They added this proposal to the Thursday, June 4, 2009 Regular Lawrence County Planning and Zoning meeting as an informational item.

**Items from Planning & Zoning Board Members:** None

**7. INFORMATIONAL MEETING -Animal Feeding Operation Ordinance-ORD 09-05**

**Owner/Representative:** Amber Vogt/Planning and Zoning Board  
**Action Required:** Discussion/Set Public Hearing  
**Purpose:** Addition of Animal Feeding Operation Ordinance

Tysdal reviewed the Special Meeting held on June 2, 2009 and the progress made on the document. Definitions including those for Animal Wintering Operations and Back-grounding were discussed. Minimum numbers for Small operations was considered, and maximum numbers of some types of animals were lowered. Vogt addressed questions and concerns received from Diane Miller and Eric Jennings She suggested Non-conforming uses not be addressed in this section specifically, because this term applies to more than just this ordinance section. The Board made the deletion of Animal Wintering Operation in the definitions and the allowed uses without a permit. A public hearing was set for July 2, 2009.

**8. Opportunity for Public Comment:**

Amy Wright, reporter for the Black Hills Pioneer, asked why this ordinance is being considered, and how important Agriculture is to this area. Johnson answered that Agriculture is very important to this area, and the reason for this and any ordinance, is to have some control or protection so something that is not appropriate for the area, does not take place. This proposal needs to be done to avoid future problems.

**9. Items from Planning and Zoning Board Members:**

Johnson explained during an on-site viewing, he had been asked about a feedlot in the Whitewood area, and concern was voiced about potential pollution of Spring Creek. Vogt explained she had been asked to contact DENR regarding this operation and had done so.

**Conflicts of Interest:** None

Vogt reminded the Board this Change of Zoning option was suggested at the last meeting after Vig presented a layout plan platting one 5 +- acre "remainder" park forest zoned lot, into two lots. Maximum density requirements would not allow this so he has applied to change this lot, and a .5 +- acre Recreational Commercial zoned portion of another lot, to Suburban Residential in order to meet zoning density requirements. Approval of a Preliminary Plat showing the new lots will have to be contingent on the Change of Zoning taking affect. The Public Hearing is set for August 13, 2009.

Vogt has talked to the neighbor who has no objection to the tower, and will write a letter stating that. She does not think it is necessary for the Slezak's to have to go through the CUP process as this windmill is a legal, non-conforming use. The Board agreed.

- **19' road surface vs. 24' road surface**
- **One way street possibility**
- **Ordinance to allow a one way street**

O'Dea abstained from discussion.

Vogt reminded the Board of their prior decision to hold approval of plats in Smokey Mountain Ranch Subdivision until they fix the road. Before the road was paved, it had a 24 foot driving surface, which is required by ordinance. Only 19 feet was paved, with the sides dropping off. The developers have proposed making this a one way road. Ordinance does not allow one way roads, and her advice to them was to request an Ordinance Amendment allowing such. Her recommendation is to deny the two plats presented, as the road issue has not been resolved. Paul Thomson, Emergency Management Director, expressed concern for emergency vehicles, if they should need to pass. Vogt read the portion of the Subdivision Ordinance Chapter 7, Section 1.3, Design Standards, stating the intent of the requirements. The Board agreed not to consider allowing one-way streets because of safety reasons.

Moved-Seconded (Ewing-Coburn) to approve the Preliminary Plat. Aye 4. Abstain: Tysdal. Motion Carried.

Moved-Seconded (Coburn-O’Dea) to approve the Final Plat. Aye: 4. Abstain: Tysdal. Motion Carried.

Vogt explained the request will change the zoning of three “remainders” from previous platting, and a half acre portion of another lot. Vigs had understood when they initially started subdividing their 17+- acre parcels, that they would be allowed four lots (building rights). The

Board had agreed with Vogt's interpretation of the ordinance allowing them three. It was suggested they apply for a change of zoning that would allow greater density. #### 5. **UPDATE ON SPIRIT OF THE HILLS WILDLIFE SANCTUARY**

Tysdal abstained from discussion, but continued to lead the meeting.

Vogt requested the Sanctuary update the Board on their current operation. The amendment for CUP #255 and Development plan was also discussed.

Paul Higbee explained the voluntary closing of the facility to public tours in 2008 to raise the fences. This was not required, however the director wished to add height to the fences for added safety. During this time, the Sanctuary Board considered erecting a new building to be used as a

kennel and educational center. They reopened for school tours in May. He stressed it is not the intent to turn the Sanctuary into a zoo. It is a farm like setting, putting animal care first and people second.

**6. INFORMATIONAL MEETING- CUP AMENDMENT #255-09**

**Owner/Representative:** Spirit of the Hills Wildlife Sanctuary

**Action Required:** Discussion / Set On-site

**Legal Description:** E1/2SE1/4 AND SW1/4SE1/4, except 2.5 acres, Section 17; NW1/4NE1/4, except 2.5 acres, and the NE1/4NE1/4 of Section 20, T6N, R2E.

**Location:** Tinton Road

**Purpose:** Amend CUP to add domestic animal shelter

**Zoning:** A-1 & PF

**Conflicts of Interest:** Rick Tysdal

Tysdal abstained from discussion and vote, but continued to lead the meeting.

A map of the facilities, both present and future, was explained. Across the road is Dr. Elsom's Veterinary Clinic where he voluntarily treats only Sanctuary animals. Vogt told the Board that all requested information had been provided. Fire protection and evacuation plans were discussed. Vogt explained this portion of the meeting pertains to the CUP amendment request, which is to add a domestic animal shelter. The addition of domestic animals to the CUP was explained as a recommendation of the County Commission. Johanna Meier Della Vecchia stated that the domestic animals have always been there, with the director bring approximately 100 with him when he relocated to this facility, but the public interest was in the exotics. This is an animal sanctuary, not a pound, and they have placed over 200 dogs.

The development plan approval is needed for the Sanctuary to add buildings.

different zoning regulations, and may remain as long as the use or structures do not change. Mrs. Cracco wishes an additional residence for another family member. The fire plan is done and Vogt was told by the Invasive Species Manager that a weed plan was not needed. The Board reiterated to Mrs. Cracco that the current residences on the property were ok as is, but if at anytime they wish to replace the existing mobile home, they would be required to bring this home into compliance with the rules at the time.
